PROFILE SUMMARY

I am a seventh-semester Software Engineering student at FAST-NUCES Lahore, currently maintaining a CGPA of 3.34/4.0. Over the course of my academic career, I have developed a robust foundation in full-stack development, desktop application design, and AI-driven solutions, with proficiency in C++, Java, Python, React, Node.js, and Odoo ERP module development. I have contributed to more than eight real-world software projects spanning web, desktop, and artificial intelligence domains, gaining practical exposure to the full software development lifecycle. I am now seeking opportunities to further apply and expand my technical skill set in a professional environment.
